## SONIC DRILLING IN MINING APPLICATIONS:

HEAP LEACH PADS

TAILINGS DEPOSITS AND  
MINE DUMPS

DELICATE INDUSTRIAL MINERALS

MINERALIZED SANDS  
EXPLORATION

SOFT FORMATION SAMPLING

GLACIATED ALLUVIAL/PLACER  
AND AGGREGATE SAMPLING

As the global leader in sonic drilling services, customers around the world trust Boart Longyear to deliver unrivaled precision in the most complex conditions. With the field experience and the technical insight to combine our sonic technology with conventional methods, we have the drilling solution to meet any challenge.

- Regolith (Bedrock/Alluvial) Exploration and Sampling
- Nickel Laterites and Kimberlite Pipes
- Pre-collar Drilling

For services throughout Australia and area contact our Perth office at +61 8 9454 8540 or email us at [info@boartlongyear.com](mailto:info@boartlongyear.com).
